"Getting a warm welcome from the local people in their own house is not an easy thing in Korea. Actually expecting busy Koreans to invite some foreigner in their house for two odd days itself is a big thing. My host was very hospitable to me and I could stay in their house like my own home"

(Bhupender Yadav / India, Graduate student)

"I been living in Korea already two years and what it always wanted to experience was home stay. so when I saw the announcement in the university webpage I didn't doubt and applied for the Short Home stay program that Gwanakgu Office offers.

(Sara Florian Samayoa / Guatemala, Undergraduate)

"Our exchange programme would never be as complete without participating in this home stay programme. The relationships and bonds that we formed over the last four months, would definitely last a lifetime"

(Chua Jialing Felicia, Tan Yong Yi / Singapore, Exchange student)

"The effort of the family that I am comfortably circumstanced was the most impressive thing during the homestay"

(Christin Deitrich / Germany, Exchange student)

"I feel the tight relationship in Korean family, experience the daily life in Korea and become mature. I will always remember the four months in Mr. Jang's family. This makes my life in Korea more colorful"

(Boya Xu / China, Graduate student)

"This is a incredible experience for me and probably my most impressive event throughout my stay in Korea. Thanks Gwanak-ku Office so much for organizing this Therefore I highly recommend other foreign students to join this and have fun"

(Iu Kwan Lai / Hongkong, Exchange student)
