Changes in 2020

☐ Increase of the Dormitory Fee & Change of Payment System

The dormitory fee of SNU Gwanak Residence Halls has been frozen for 10 years since 2010 in order to ease the burden on residents.

Annual increase in consumer prices and labor costs continues to cause financial difficulties in the management of the dormitory. We established new dormitory fee which reflected social-economic conditions in order that we can provide pleasant and convenient residential environment for residents based on more stable financial environment.

* The newly updated dormitory fee will be announced later.

☐ Operation of Global Residence Halls

The Global Residence Halls, which opened in the second semester of the 2019, maintains high ratio of foreign residents to strengthen support for foreign students. In order to ensure stable housing for Korean and foreign students entering the second semester, the period of residence has been subdivided into the two semesters(move-in on March ~ move-out on February, move-in on September ~ move-out on August).

Considering the characteristics of an overseas university and high percentage of exchange students who only reside 1 semester and return to their own country, the applicants who apply for 'residing only 1 semester' will be selected first. After securing an extra seat for the second semester, the applicants for move-in on September ~ move-out on August can ensure stable residence. That is the goal of introduction of the two semesters.

☐ Overview of Global Residence Halls

The Global Residence Halls has a floor space of 18,657.02 square meters

(5,653 pyeong) and consists of three buildings (bldg. 915~917) which have 2 underground floors and 9 floors. Those buildings are separated into double room and four single room. The total capacity is 960 students and the graduate's building(bldg. 917) accomodate about 280 students.

In addition to living space for supporting autonomous learning and community activities of Korean and foreign students, the Global Residence Halls is equipped with seminar rooms, lounge rooms, community rooms, club rooms, fitness centers, etc. and is available to cook and laundry. For convenience facilities, we provide convenience store, coffee shop, and fast food restaurant.
